SKILLS

- React Native
- TypeScript
- Mobile Application Development
- JavaScript
- React
- Expo
- Expo Router
- React Hooks
- Redux
- Redux Persist
- Zustand
- Redux Toolkit
- React Query
- Context API
- State Management
- REST APIs
- GraphQL
- BFF (Node/NestJS)
- Deeplinking
- Firebase Crashlytics
- Sentry
- Jest
- React Testing Library
- Unit Testing
- Git
- GitHub
- Agile Methodologies
- Scrum
- Kanban

WORK HISTORY

Senior Frontend Developer | amiPass | Santiago, Chile (Remote) | 07/2025 - Current
• Architecting and developing multi-platform mobile application from scratch using Expo and React Native
• Implementing modern React patterns and TypeScript for type-safe, maintainable codebase
• Leading technical decisions on state management, navigation architecture, and component design
• Collaborating with cross-functional teams (Product, UX, Backend) to deliver user-centric features

Mobile Analyst | Perficient | Santiago, Chile (Remote) | 09/2023 - 05/2025
• Improved app performance by 10% through optimization of rendering cycles, lazy loading, and efficient data fetching
strategies
• Developed and maintained enterprise-grade cross-platform applications using React Native and TypeScript
• Implemented offline-first architecture, enabling full app functionality in low- connectivity scenarios, improving

accessibility for 30%+ of users in zones with bad connectivity
• Published multiple production releases to App Store and Google Play following platform guidelines and best practices
• Collaborated with international product and UX teams to enhance user experience based on analytics and feedback

Web UI Developer | Globant | Santiago, Chile (Remote) | 12/2021 - 09/2025
• Boosted NFL mobile app performance by 20% by replacing FlatList with FlashList and implementing React
Query for optimized data management and caching
• Translated complex business requirements into scalable, accessible, and reusable UI components following design
system guidelines
• Collaborated with distributed international teams across multiple time zones

React Native Developer | Boosmap | Santiago, Chile (Remote) | 02/2021 - 10/2021
• Developed complete delivery management application from concept to production using React Native, TypeScript,
and Redux
• Successfully launched app on both App Store and Google Play Store
• Implemented real-time order tracking with map integration and push notifications using Firebase

React Native Developer del Centro de Inteligencia de Negocios (CIN) | Universidad Católica del Norte | Coquimbo, Chile (Remote) | 12/2019 - 01/2021
• Developed mobile applications using React Native at Universidad Católica del Norte
• Created reusable components to streamline development processes.
• Collaborated with a diverse team using Agile methodologies for efficient project delivery

EDUCATION

Universidad Católica del Norte | Coquimbo Chile   2013 - 2019
Bachelor of Science: Computer Engineering, Computer Science

LANGUAGES

Spanish (Native)   English (B2)
